Join LAEF Fall After-School Classes!

(Los Alamitos, CA) – The Los Alamitos Education Foundation’s fall after-school classes are beginning this month on all district campuses! Participating children will experience amazing enrichment opportunities taught by credentialed and highly-qualified teachers in a small class environment.

Parents are highly satisfied with LAEF classes! District Parent Amy Payne says, “My daughters love LAEF classes because we can round out their learning by giving them instruction in the arts and STEM areas (science, technology, engineering and math). The hands-on projects show the fruits of her labor, and she is given a sense of excitement and achievement. I am very happy with the quality and value of LAEF classes.”

Classes are right on campus immediately following the end of the school day. 77 classes are being offered across the district with 21 types of classes including Mandarin, Spanish, American Sign Language, art, drama, science, computer coding, 3D printing with computer aided drafting, martial arts, cooking, gardening and driver’s education. Over 650 students participated in classes last spring; LAEF is facilitating even more participation now by offering additional scholarships, thanks to the support of Run Seal Beach.

LAEF is proud to offer these enrichment opportunities as the non-profit partner of Los Alamitos Unified School District. LAEF goes beyond the school bell to enhance educational excellence in our community. For more information, visit www.LAEF4kids.org or call (562) 277-6876 today!
