Breakdance 101	WeBreak Dance Co.	1st-5th	Friday	2:35-3:40	\$195	\$210

Duplo LEGO® (Simple Machines)

Students will be working with DUPLO LEGOs while learning a wide variety of engineering topics. Students will learn organizational and fine motor skills, as well as team work and other life strategies! Through this course the students will discover simple machines (gears, levers, wheels & pulleys) by engaging in fun activities and guided play. Each child will receive a LEGO gift along with a certification of participation on the last day of class.

Safari Science Adventure

We are hunting down the weird, unusual, and the strangest things in science! We'll journey to find the most dangerous animals on earth including blow fish and sea snails. We'll explore the science behind spider webs, exploding candy and snot! If it's weird and it's out there, Safari Science Adventure will track it down. Join our expedition!

Breakdance 101

Learn this dynamic and entertaining form of dance! Students will be introduced to the world of breakdance and learn moves like TopRock, Six-Step, Freezes, Swipes and more!

Architecture LEGO®

Students will design and build sky scrapers, columns, arches, piers, skylines, and more with LEGOS! Each child will receive a LEGO gift along with a certification of participation on the last day of class.

Fun with Food

Young students will create culinary masterpieces in this hands-on cooking class. Cooking is amazingly appealing to their tactile senses; pouring, stirring and touching can teach cooperation and a sense of pride in their creations. We hope that our students will develop life-long appreciation for nutritious food and good eating habits.

Ocean Art

Students will learn and explore new processes and techniques for creating art. The class will focus on having the students practice visual problem solving and learning creative self-direction. There will be an emphasis on learning the fundamentals of art through trial and experimentation in the realm of the surf and ocean life.

Voice and Movement

Students in this upbeat class will learn vocal technique, basic music theory as well as how to perform a song. We will incorporate free-form dance to loosen up the body and strengthen the diaphragm. This is the perfect class for the child that loves to sing.

Kids Choir

Students will learn vocal technique, basic music theory as well as how to perform a song. Students will enjoy learning how to portray character and emotion giving each song meaning. We will incorporate free-form dance to loosen up the body and strengthen the diaphragm.

LEGO® Robotics

Swing like a monkey, fly like a bird, or hop like a frog into LEGO Robotics. LEGO Robotics will ignite the creativity of children while they dive into the wonders of the animal kingdom through inventive playful experience building robots.

**** Add Materials Fee: \$40**

Surfeo Safari (Español)

Immerse your child in the Spanish language. Instructional focus is on building Spanish vocabulary, conversational dialogue and cultural awareness. We're going to be learning about Surf and life in the Ocean including animals, plants and the climate!

Surf Art

Students will learn and explore through traditional and untraditional methods of painting, drawing, printmaking, and sculpture to create colorful masterpieces of ocean life and surf. Using the Elements and Principles of Art, students will embark on a journey of self-expression.

Jiu Jitsu

This class will focus on bully prevention and self-defense while helping students gain confidence in their physical abilities using Brazilian Jiu Jitsu.
