| Robotics | TBD | Thursday | Start Date: TBD 4/13, 4/20 | 3:30-5:00 | \$99 |

Robotics

This class provides students with engaging hands-on explorations of computer science, technology, engineering and mathematical fields through the use of robots. Students will build and program real-life robotic solutions using motors, sensors, batteries, connectors, and various structural elements. Through this engaging program, students will show creativity, use teamwork, and strengthen their skills in logic, math, problem solving, and deduction.

Intro to Spanish 1

Immerse yourself in the Spanish language. Get a jumpstart on Spanish 1! Instructional focus is on building Spanish vocabulary, conversational dialogue and cultural awareness. We're going to be learning the basics and fundamentals of the Spanish language. **Mrs. Chavez is a Spanish teacher at Los Al High School!**

Girls Self Defense

Kenpo Karate with an emphasis on practical self-defense for girls as well as empowerment.

Culinary Workshop

These classes will integrate academic components such as math, science, history, kitchen safety and nutrition into creative cooking lessons. The menu from which your young chef will cook is carefully and lovingly created to reflect the change in seasons and the vibrant array of delicious foods from around the world. Ingredients are sources from local farms to maintain our farm-to-table philosophy.

***Add Materials Fee \$50**
