Safari Science Adventures	Melodie Fox	1st-5th	Friday	2:45-3:50	\$195	\$210
Minecraft Creations	Build It Workspace	3rd-5th	Friday	2:45-3:50	\$195 **	\$210

### Minecraft Creations

Discover 3D printing as you create models of your favorite Minecraft characters. Learn pixel art to build your own unique skin for your 3D model and bring home your own colorful 3D printed character.

**\*\* Add Materials Fee: \$60**

### Website Design

In this information packed, fun-filled class, young artists will learn basic page building techniques for creating a professional quality web site. From storyboards and page building to digital design and page linking, students will develop creative techniques step-by-step. By the end of the class students will actually post their pages to the World Wide Web.

### Jiu Jitsu

Focus will be on bully prevention and self-defense while gaining confidence in their physical abilities using Brazilian Jiu Jitsu.

### Breakdance 101

Learn this dynamic and entertaining form of dance! Students will be introduced to the world of breakdance and learn moves like TopRock, Six-Step, Freezes, Swipes and more!

### Duplo LEGO® (Simple Machines)

Students will be working with DUPLO LEGOs while learning a wide variety of engineering topics. Students will learn organizational and fine motor skills, as well as team work and other life strategies! Through this course the students will discover simple machines (gears, levers, wheels & pulleys) by engaging in fun activities and guided play. Each child will receive a LEGO gift along with a certification of participation on the last day of class.

### Safari Science Adventures

We are hunting down the weird, unusual, and the strangest things in science! We'll journey to find the most dangerous animals on earth including blow fish and sea snails. We'll explore the science behind spider webs, exploding candy and snot! If it's weird and it's out there, Safari Science Adventure will track it down. Join our expedition!

### Surf Art

Students will learn and explore through traditional and untraditional methods of painting, drawing, printmaking, and sculpture to create colorful masterpieces of ocean life and surf. Using the Elements and Principles of Art, students will embark on a journey of self-expression.

Students will learn artistic concepts such as color mixing, value, perspective and pattern.

### Architecture LEGO®

Students will learn about simple architectural concepts in a fun and creative way! Students will design and build sky scrapers, columns, arches, piers, skylines, and more with LEGOS! Students will build their own city incorporating all the ideas they learned! Each student will receive a LEGO gift along with a certification of participation on the last day of class.

### Surfeo Safari (Español)

Immerse your child in the Spanish language. Instructional focus is on building Spanish vocabulary, conversational dialogue and cultural awareness. We're going to be learning about surf and life in ocean including animals, plants and climate!

### LEGO Robotics

Swing like a monkey, fly like a bird, or hop like a frog into LEGO Robotics. Whether in zoos, on the farm, or in your own back yard, we'll encounter animals in our lives. LEGO Robotics will ignite the creativity of children while they dive into the wonders of the animal kingdom through inventive playful experience building robots.

**\* Add Materials Fee: \$40**

### Lemonade Stand Economics

It's the classic lemonade stand with a new twist! Students become young entrepreneurs learning business and marketing skills as they plan and run a lemonade stand. Students will use reading, writing, math, science, business and collaboration skills in creating a successful lemonade stand.

### Mandarin

Immerse your child in the Mandarin language. Students will familiarize themselves with Chinese culture through music and art.
