

# THE YOUNG AMERICANS

PERFORMING ARTS WORKSHOP

Presented by:

LOS ALAMITOS EDUCATION FOUNDATION

Jan. 25-27, 2019

The Young Americans believes in the power of music and the impact it has throughout the world. Its specially-trained international performers use music as the tool to help students grow within the performing arts and develop important skills in leadership and teamwork.

The Young Americans brings 40 college-age performers from around the world to host a Performing Arts Workshop in your community. The workshop takes place over three days – two days of fast-paced rehearsal leading into an unrivaled, fully-staged show. Our unique teaching style provides an encouraging environment for students to push past insecurities and achieve the seemingly impossible. Our team comes from a diverse background which allows us to reach every student to reveal their best qualities as people and as performers. As a result, our workshops energize and strengthen existing music programs while uniting the community.
