Acting Academy

Acting Academy will allow kids to expand their skills in acting, public speaking and performing.

Students will participate in a drama and stage performances that will help build confidence and creativity that can have a dramatic positive impact on academic, personal and professional success. Students will engage in activities such as speech training, mini-scripts and improvisations in small groups, monologues, character analysis, auditioning-skill development and production techniques.

Girls Self Defense

Kenpo Karate with an emphasis on practical self-defense for girls as well as empowerment.

EPSON[®]
EXCEED YOUR VISION

Drawing and Painting & Digital Arts

Master the fundamental techniques of Drawing & Painting while expanding your conceptual boundaries and developing your own artistic vision! Students will create images to tell stories, convey information, and evoke emotions. Explore digital arts through use of printer projects by progressing handmade skills to the digital realm. Students will learn techniques, create projects, and use processes that will allow them to build a great portfolio. They will also have the opportunity to learn techniques from classical to multicultural artists from around the world. *LAEF thanks Epson for their generous Digital Arts grant!
