Clean Wave Car Wash Continues to Support Los Al Kids

Los Alamitos, CA – As the Los Alamitos Education Foundation (LAEF) transitioned to an all-new fundraising event in 2025, Clean Wave Express Car Wash continues to demonstrate its unwavering support as a major sponsor! Having supported LAEF's Royal Gala and Fundraising February for the past four years, LAEF was thrilled to have their support again this year with the shift to LAEF's Night Out. Clean Wave proudly contributed at the \$15,000 sponsorship level, reinforcing its ongoing commitment to local education and community development.

As a key part of the Los Alamitos community for over four years, Clean Wave Express Car Wash offers a modern, high-tech car wash experience at its state-of-the-art facility in Los Alamitos. Clean Wave uses advanced automated systems to deliver the best car wash experience while maintaining a focus on quality and customer service.

The ownership team at Clean Wave has deep roots in the Los Alamitos Unified School District and LAEF. Brian Leibl, George Voigt, and Will Mingram, along with their families, are all deeply invested in the community, with children who are both current and former students of the district. Leibl, a former board member of LAEF, continues to play an active role in supporting local initiatives. Voigt's wife, Leanne, serves on the LAEF Board and was also a part of the planning committee for this year's event. The families of Leibl, Voigt, and Mingram are also part of LAEF's

prestigious Los Al Leadership Circle, further demonstrating their ongoing dedication to supporting the district's educational efforts.

"I'm proud to continue Clean Wave's support of LAEF's Innovation Grants," said Brian Liebl, co-owner of Clean Wave. "These grants empower educators and students to dream big, creating even more impactful learning experiences across our schools. It's an honor to support initiatives that foster creativity and innovation in education."

Proceeds from LAEF's Night Out directly support Innovation Grants, which enrich the educational experience for students in the Los Alamitos School District. Grants are requested by school staff and impact all six elementary schools, both middle schools, Los Alamitos High School and the Adult Transition Program.

LAEF, the nonprofit partner of the Los Alamitos Unified School District, is committed to enhancing educational excellence in the community by offering after-school and summer enrichment programs for students from Pre-K to 12th grade. For additional information about LAEF, please call (562) 799-4700 x80424 or visit www.LAEF4Kids.org.
